Program (identify and briefly describe): Established in 1987 implements the Montana Meat and

Poultry Inspection Act. Implements and enforces an inspection system equal to that maintained by USDA Food Safety Inspection Service to ensure clean, wholesome, and properly labeled meat and poultry products for consumers.

List a single goal and brief description:

To implement and enforce an inspection system equal to that maintained by USDA Food Safety Inspection Service to ensure clean, wholesome, and properly labeled meat and poultry products for consumers

Describe the performance measures related to this goal:

- Performance is measured by the completion of a number of inspection reports by establishment type that record compliance and noncompliance by end of calendar year annually.
- Results of annual USDA review to assure program adherence to all federal inspection regulations.
- Certification letter from USDA/FSIS indicates Montana Meat and Poultry Inspection program adheres to all federal inspection regulations. Certification typically received by end of each calendar year.

List significant milestones and target dates to be completed in the 2009 Biennium:

- Inspection report for: Official State Inspected Establishments inspections are completed daily, when the plants are producing state inspected wholesale products.
 - o Custom Exempted Establishments inspections are completed quarterly. These plants are producing NOT-FOR-SALE products, processing for the owner of the animal.
 - o Meat Depots inspections are completed at least annually for sanitation and facility construction.

Describe the current status of the measurements related to the goal:

Inspections are being made and data is being compiled
